PROFESSIONAL SUMMARY

Computer Engineering student with hands-on experience in HTML, CSS, JavaScript, Java, and SQL, gained through two internships and academic projects. Seeking an entry-level Frontend / React.js Developer role to build responsive, user-friendly web interfaces and integrate them with databases and APIs.

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript, Responsive Web Design, React.js (learning)
- **Backend and Database:** Java, SQL, MySQL
- **Tools and Platforms:** Git and GitHub (learning), Visual Studio Code, NetBeans IDE, Eclipse IDE, Jupyter Notebook, Anaconda Navigator, Excel, PowerPoint
- **Soft Skills:** Problem-solving, communication, report building, teamwork

WORK EXPERIENCE

Web Technologies Intern | Proazure Solution, Kharadi, Pune — 1 month

- Built and improved web pages using HTML, CSS, and JavaScript, following responsive layout practices.
- Integrated SQL databases with web applications to store and retrieve application data.
- Gained practical knowledge of the web development workflow and tools.

Core Python and Java Desktop Application Intern | Innovators Technology, Warje, Pune — 6 weeks

- Developed core functionality for Java desktop applications.
- Wrote Python scripts to automate routine tasks and improve operational efficiency.
- Collaborated with senior developers to build and test software and contributed to key features.

PROJECTS

Flat Booking Web Application UI (HTML, CSS, JavaScript) — February 2025

- Designed and developed a responsive website with a landing page, user registration button, and navigation bar showing flat and housing-society information.
- Focused on clean layout and easy navigation for first-time visitors.
- Live link: [add link] | Code: [add GitHub link]

Online Question Paper Generation System (Java) — June 2024

- Built a system that automatically generates question papers by randomly selecting questions from a predefined pool based on user input.
- Used Java for back-end processing and designed a user-friendly interface for generating and managing papers.

Smart Pendant using IoT and ML — June 2026

- Developed a wearable pendant for fall detection and real-time heart patient monitoring to reduce rescue delay in emergencies.

EDUCATION

Rajgad Dnyanpeeth's Shree Chhatrapati Shivajiraje College of Engineering — Expected [Month Year]
BE, Computer Engineering | CGPA: 7.06 / 10 (up to 7th Semester)

HSC, Kolhapur Divisional Board | 60.17% — March 2022

SSC, Kolhapur Divisional Board | 86.60% — March 2020

CERTIFICATIONS

Internship in Web Development Certificate | Awarded for excellence, 95% overall score — January 2025

In-plant Training Completion Certificate — July 2024
Core Python programming, aptitude training, and Java Full Stack Desktop Application Development.
